

# Junior/Mid-Level Graphic Designer

We are looking to add a Junior/Mid-Level Graphic Designer to our talented marketing team.

We are urgently looking for a Designer with a background across both print and digital projects and excellent technical skills. A solid artworking background and top grade software skills in InDesign, Photoshop and Illustrator. To join a fast growing challenger recruitment brand that's really making a noise and standing for something different in the industry.

You will be required to create page layouts for both digital and print projects as well as producing digital assets for websites and corporate reports. We are looking for a Designer who can hit the ground running but you'll be very much be working in partnership with, and have the support of our Senior Designer.

You must be happy working from scamps, brand guidelines and under creative direction, while maintaining a proactive approach to every creative challenge. The ideal candidate will have a firm grasp of different file formats and their attributes and possess a good working knowledge of Photoshop, Illustrator, InDesign, Word/PPT and Dreamweaver.

## RESPONSIBILITIES INCLUDE:

- To work closely with the Senior Designer
- Creation of hi-res print ready artwork files
- High attention to detail/proofreading skills

## EXPERIENCE:

- Experience of producing print-ready artwork
- Strong communication skills
- Mac proficient with excellent Adobe skills
- Able to handle a fast paced environment
- Able to prioritise workloads independently
- Web/digital skills
